**Without Prejudice**

Dear Sir / Madam,

**RE: Seychelles Swimming News Social Media Page**

It has been brought to our attention that after due recognition from the National Sports Council, Africa Aquatics and World Aquatics of the Seychelles Aquatic Federation (SAF) that you have been continuously on your social media page circulating misleading information to the public about Seychelles swimming being amongst others:

- Official announcement of records without due ratification by SAF
- Claims that you are the official body for swimming news in Seychelles
- Misinformation about the Grand Prix with claims that same is being organized by NSC

It is also noted that you may have further contacted Africa Aquatics without consent and due knowledge of SAF for official publication of a yet to be ratified national record and possibly provided an article with regards to same.

As the sole body representing swimming in Seychelles and recognized by the governing bodies, we are advising you to cease and desist such practices with immediate effect.

We also wish to draw to your attention that this practice has been reported to the Africa Aquatics Integrity Unit and the National Sports Council and that should such practice continue, these bodies may take the necessary actions against you.

Seychelles Aquatics Federation has been elected to represent all areas of aquatic sports in Seychelles and welcome all partners towards the growth of swimming and other aquatic sports in Seychelles. We therefore invite you to work together with us towards this common goal.

Yours sincerely,

Muriel Morgan  
Chairperson  
Seychelles Aquatic Federation

Official member of

National Sports  
Council
